Expectations of presentation of our Maths work

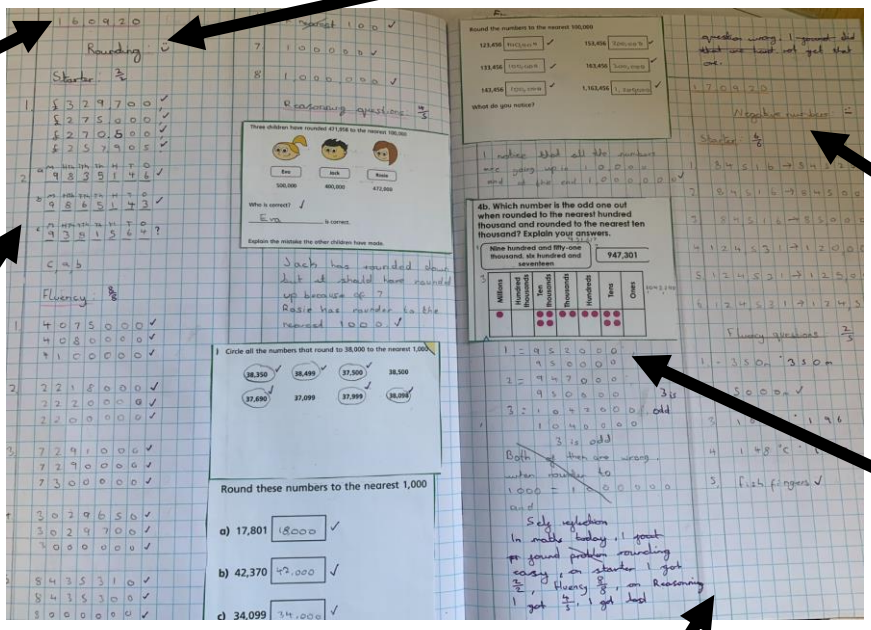

A sharp pencil should be used for:

- Drawings
- When using a ruler
- Labelling drawings and diagrams
- All aspects of Mathematics
- Rubbers should be discouraged as any errors should be completed with a purple pen
- Sub headings for Fluency, Problem solving and Reasoning.
- Underline last piece of work and start next piece of work underneath.

Work in your mathematics should be set out in the following way:

A line should be left between the date and title and the start of your work.

The short date should be written on the top line on the left hand side of the page.

The Title should be written across the page and underlined with a colour pencil.

Work should be presented going down the page with working out underneath.

For all key stages question are clearly numbered in the margin.

1 digit per square.

Two margins should be drawn, 1 down the left hand side of the page and 1 in the middle of the page. Margins should be 1sq wide at KS1 & 2 squares wide at KS2. Pages should be folded in half to help with drawing of the middle margin.
